## Comistra SRL

We work to create fashion and beauty, making recycling the only possible choice to support the environment and the people who are part of it.

Our yarns and fabrics originate from recycled raw materials, coming from textile by-products or used clothes, without the use of dyeing.

Our products fit perfectly into the philosophy of the circular economy.

## Filati Omega S.R.L.

Filati Omega was founded in 1962 and has been producing yarns since 1990. We produce about 10,000 tons of yarn per year, in regular and recycled options. We strive for high quality standards, always investing in production processes with continuous updating of machinery and research of raw materials, in line with the strictest international standards.

## Manteco SPA

**MANTECO**<sup>®</sup>  
MANTELLASSI COMPAGNIA TESSILE

Manteco SPA is a leading textile company for sustainable, high-quality fabrics. We started working with recycled wool yarns in 1943, producing new textiles from old military garments. As the trends developed, we adopted new technology and innovation to supply smart and creative textile solutions for the modern consumer.
