

IMMIGRATION POLICY IN CHINA BASED ON INFORMATION RECEIVED FROM CHINA WOOL TEXTILE ASSOCIATION

(last update: 28 June 2022)

A. The latest COVID-19 prevention policy for China-bound passengers

According to Diagnosis and Treatment Protocol for COVID-19 Patients (Tentative 9th Edition) released by National health commission of the people's republic of China on 28 June 2022, the new COVID prevention regulation for China-bound passengers is as follows:

*NHC China requests passengers to comply with health management measures and personal protection requirements. All inbound passengers are required to **take 7-days designated hotel medical observation (centralized quarantine) and 3-days home health monitoring.** Nucleic acid tests will be carried out on the first, second, third, fifth and seventh days during the centralized quarantine, and nucleic acid tests will be carried out on the third day of home health monitoring. Do not go out during home health monitoring and do personal protection when going out under special circumstances such as medical treatment. Avoid taking public transportation as far as possible.*

B. HDC QR Code Application Requirements for China-bound Foreign Passengers

Travellers to China will need to apply for a Health Declaration Code (HDC) before flying to China. When applying for HDC via the following link below or the QR code, there will be the requirements for covid testing before the flight, which will normally require double RT-PCR tests, but rules can differ between countries. Thus, it is recommended to check with your local Chinese embassy for more specific rules (and check regularly if there have been any changes to the rules). We suggest you search "Embassy of the People's Republic of China in [your country]" for full information. Please also take note of any transit rules.

Please visit <https://hrhk.cs.mfa.gov.cn/H5/> via computer or phone to apply for the HDC. You can also scan the QR code below to access the website. After being approved by the Embassy, you will obtain a green Health Declaration Certificate with "HDC" mark which is needed for boarding.
