

The Value Of Wool And Sheep Farming

I turn grass into milk, meat and wool. What's your superpower?

Economics Of Sheep Farming

If the sheep produces 20 micron wool, the yearly income from wool would cover the cost of shearing and deliver a profit.

A sheep could produce up to 10% of its body weight in wool, without taking away from the meat or milk production

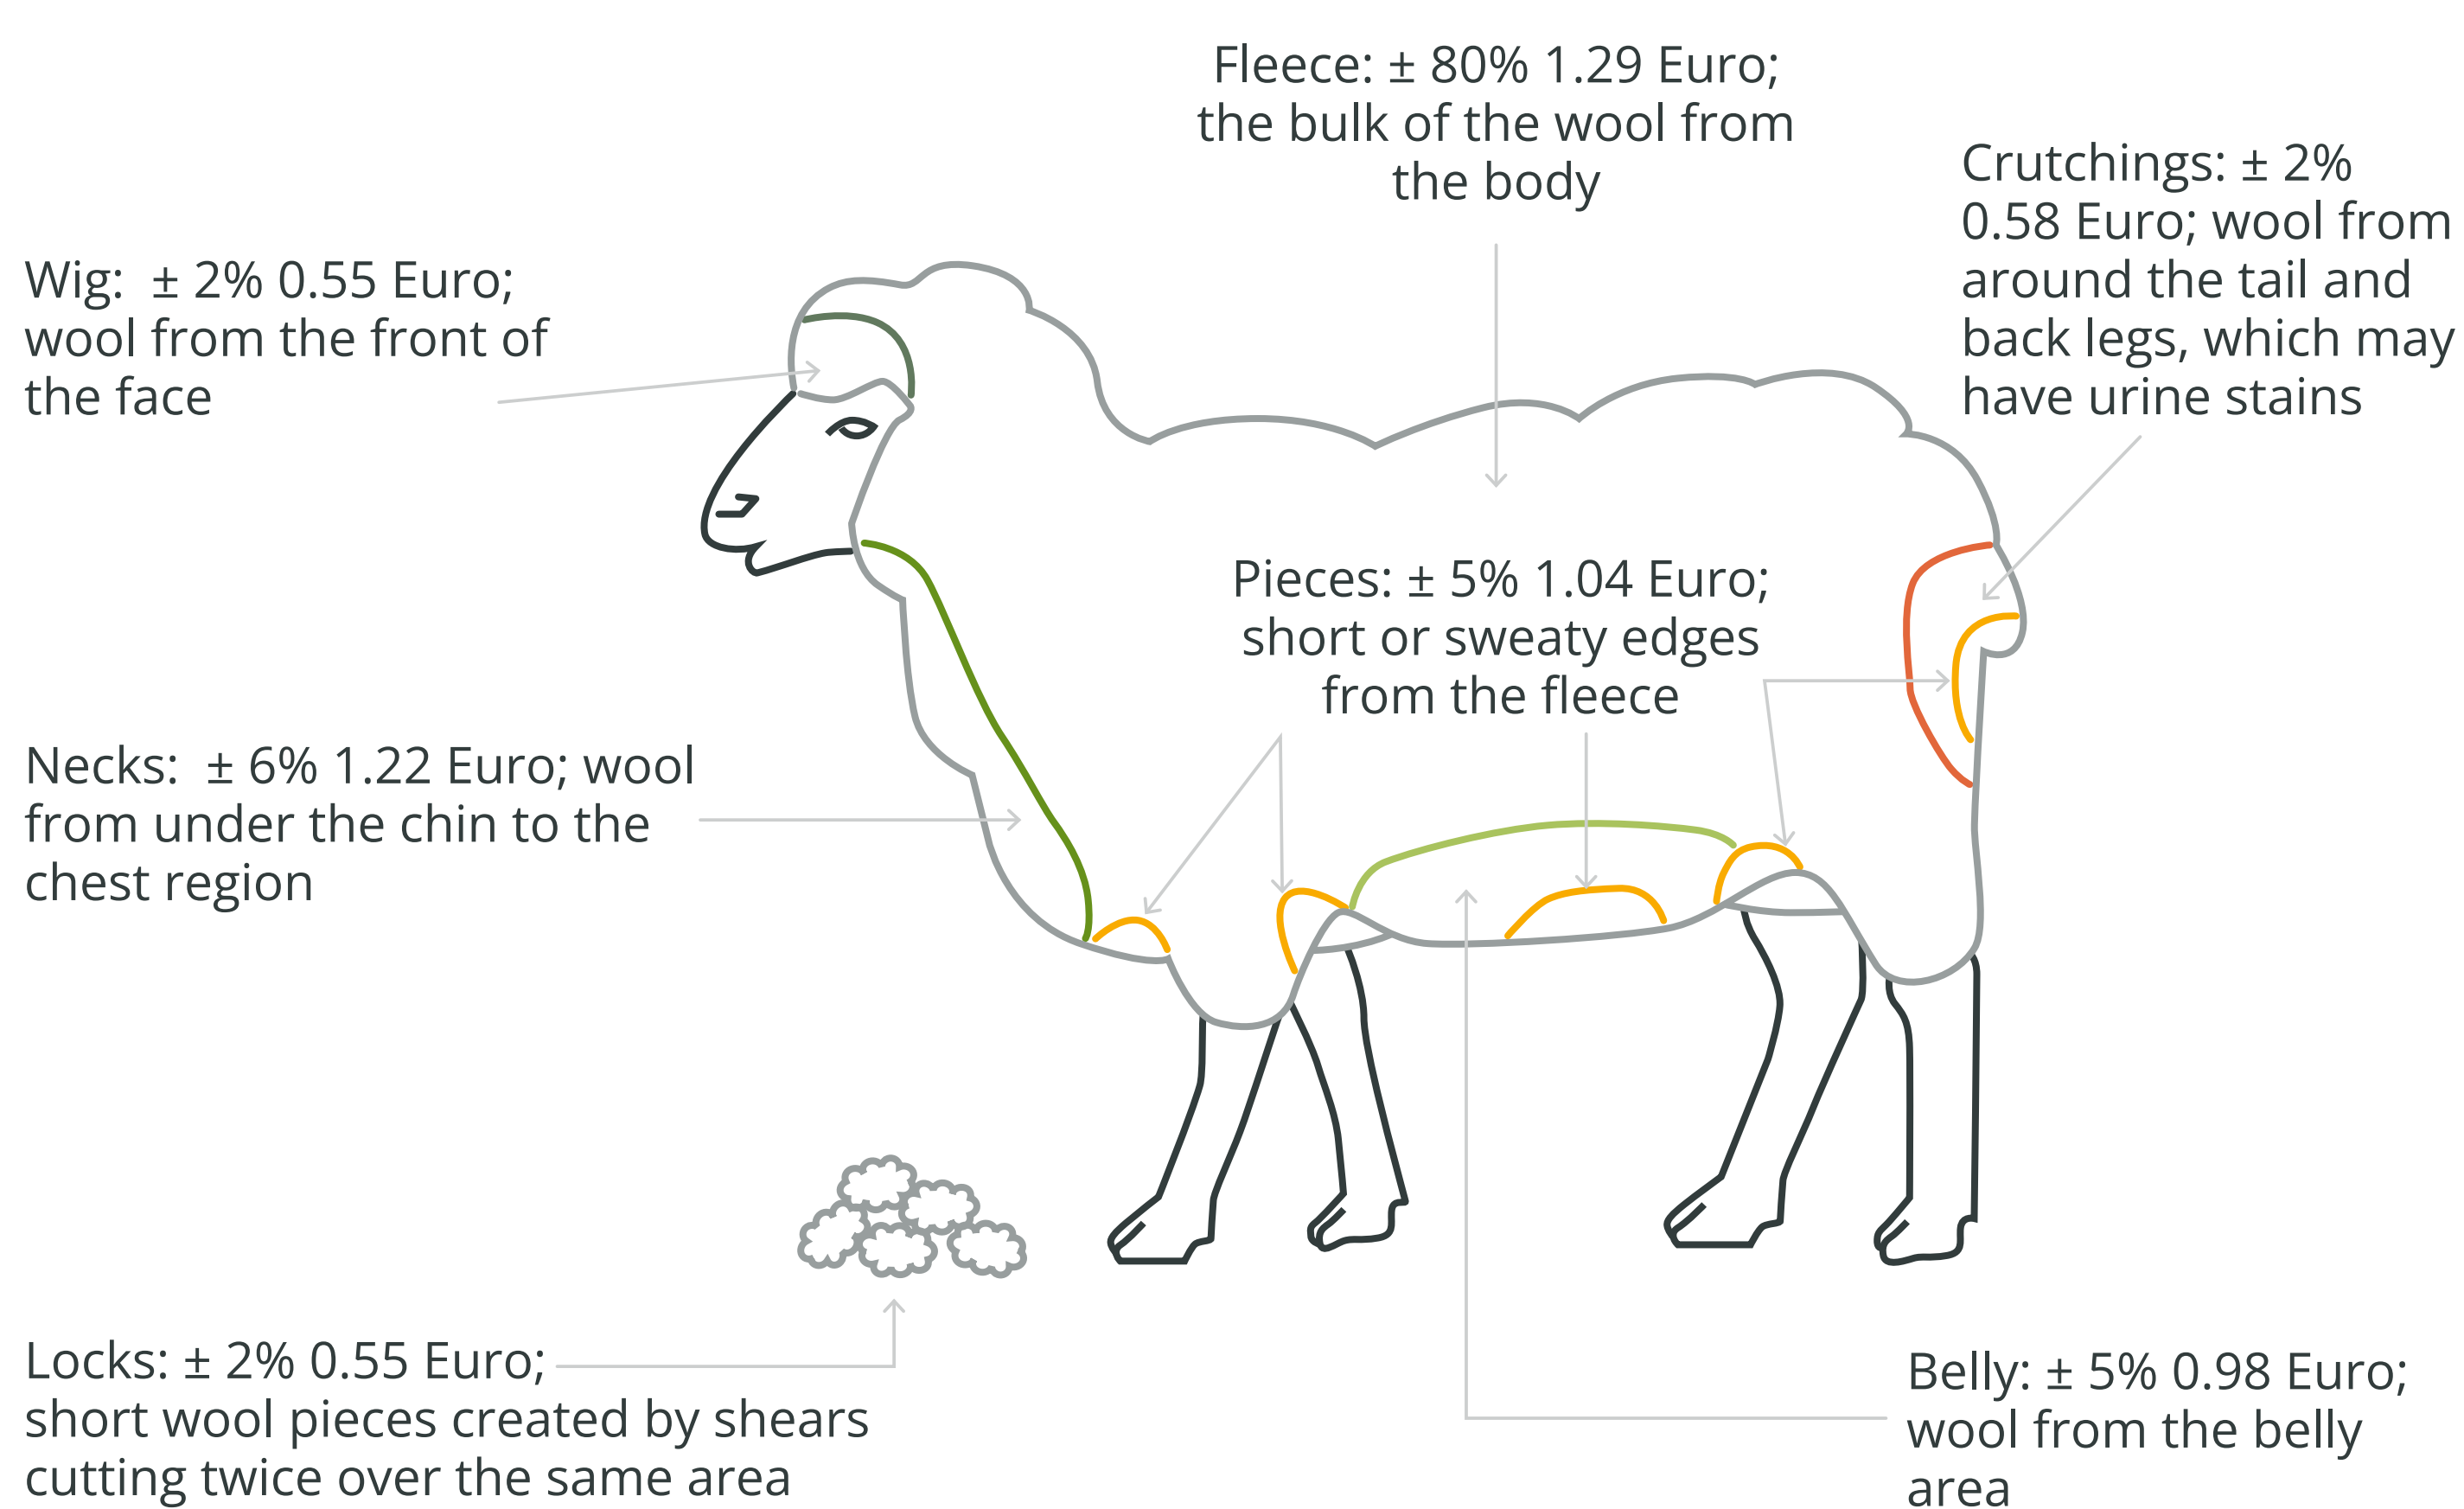

= Yearly bonus

FIXED COSTS = MINUS

POSSIBLE INCOME = PLUS

Food	Natural Grass/Supplements	Milk	Daily
Water	Dam/Trough	Meat	Yearly
Shelter	Barn/Plantings		
Protection	Wolfs/Fencing	Wool	Yearly
Health	Vaccinations and pest control		
Land	Capital layout		
Financial	Interests		
Labour	Staff
